Subject: Case Closure with Restrictions for Buss and Co.-Site A, 833 River St., Caroline, WI;  
WDNR BRRT's # 03-59-001050.

Dear Mr. Buss:

The Department's Case Closeout Committee in the Northeast Region has completed a review of the above-referenced petroleum contamination case and has approved it for closure. Your case closure letter has the following three significant parts:

1. General case closure criteria.
2. Groundwater Use Restriction
3. Final Disposition of Excavated/Remediated Soil Pile

Please read this entire letter. It addresses each of these topics with subtitled indented paragraphs.

### 1. General Case Closure

The case closure panel reviews environmental remediation cases for compliance with state laws, standards, and guidelines to maintain consistency in the closeout of cases. At the present time, it appears that actions have been taken to the extent practicable to restore the environment and minimize the harmful effects from this discharge to the air, lands and waters of this state. Please be aware that this letter does not absolve the current or any future owner of this property from future decisions regarding this site or impacts which may be discovered and/or traced back to past or future activities at this site. If additional information in the future indicates that further investigation or cleanup is warranted, the Department will require that appropriate action be taken at that time.

### 2. Deed Notice of Remaining On-site Groundwater Contamination.

Groundwater contamination in excess of NR140 Enforcement Standards remains at the site. However monitoring data indicates that natural attenuation will remediate the remaining contamination in a reasonable period of time. As a condition of closure, the Department is requiring that a groundwater use restriction be placed on the property deed indicating this condition and special requirements that will be necessary to construct a well on the property.

Please send me a copy of the current property deed as filed with the Shawano County Register of Deeds. The deed must have a detailed property description and the name of the current property owner; a certified survey map if available, should also be included. A map, delineating the paved area shall also be submitted for attachment to the deed document. I will prepare the groundwater

use restriction based on this information and return it to the appropriate person for filing at the register of deed office. Please note that the current property owner or an authorized representative must file the notice.

3. Final Disposition of Excavated/Remediated Soil Pile

Please provide the Department with documentation of final disposition of the excavated soil pile.

The Department appreciates the actions you have undertaken to restore the environment at this site. This case will appear as closed on the Department's case tracking system after our receipt of 1) the monitoring well abandonment forms (Form 3300-05B) for all monitoring wells related to this case; 2) documentation that the deed document has been filed at the register of deeds office and 3) documentation of the disposition of the remaining soil pile.

If you have questions regarding this letter, you may contact me at (715) 526-4230.

Sincerely,

Dear Mr. Buss:

I have received the Groundwater Use Restriction and associated attachments that have been signed and filed at the Shawano County Register of Deeds. This Groundwater Use Restriction was a condition of the case closure as indicated in my letter of March 30, 2001.

The Department considers this case closed and will remove it from our active list on our case tracking system. Please be aware that this letter does not absolve the current or any future owner of this property from future decisions regarding this site or impacts which may be discovered and/or traced back to past or future activities at this site. If additional information in the future indicates that further investigation or cleanup is warranted, the Department will require that appropriate action be taken at that time. WHEREAS, The property described in Attachment 1, Warranty Deed, found at Vol. 297, Page 531, Shawano County Register of Deeds. However, excluding therefrom the following described properties: The North One Hundred Six (106) feet of Block Seven (7) of the Original Plat of the Village of Caroline, Wisconsin, except the West 60 (60) feet thereof previously conveyed and a parcel commencing at the North West corner of Lot No. Four (4) of Maleug's Addition to the Village of Caroline, Shawano County, Wisconsin and running east Sixty-eight (68) feet, South One Hundred (100) feet, West Sixty eight (68) feet and North One Hundred (100) feet to the place of beginning; and,

The property described in Attachment 2, Warranty Deed, found at Vol. 232, Page 502, Shawano County Register of Deeds; and,

The property described in Attachment 3, Warranty Deed found at Vol. 325, Page 486, Shawano County Register of Deeds.

WHEREAS, one or more petroleum discharges have occurred on this property. Contaminated groundwater above ch. NR 140, Wis. Adm. Code enforcement standards, existed on this property at the following locations on the following dates: Monitoring Well - 3 (MW-3) Naphthalene at 78 micrograms per liter (ug/L) on June 5, 2000; MW-5 Naphthalene at 55 ug/L, Benzene at 19 ug/L on June 5, 2000; and MW-6 Naphthalene at 55 ug/L, Benzene at 640 ug/L and Lead at 25 ug/L on September 17, 2000. The locations of the monitoring wells are provided on Exhibit 1, attached and made part of this restriction.

Attachment 4

WHEREAS, it is the desire and intention of the property owner to impose on the property restrictions which will make it unnecessary to conduct further groundwater or soil remediation activities on the property at the present time.

WHEREAS, natural attenuation has been approved by the Department of Natural Resources to remediate groundwater contamination exceeding ch. NR 140 groundwater standards within the boundaries of this property.

WHEREAS, construction of wells where the water quality does not comply with drinking water standards in ch. NR 809 is restricted by chs. NR 811 and NR 812, Wis. Adm. Code. Special well construction standards or water treatment requirements, or both, or well construction prohibitions may apply.

NOW THEREFORE, the owner hereby declares that all of the property described above is held and shall be held, conveyed or encumbered, leased, rented, used, occupied and improved subject to the following limitation and restrictions:

Anyone who proposes to construct or reconstruct a well on this property is required to contact the Department of Natural Resources' Bureau of Drinking Water and Groundwater, or its successor agency, to determine what specific requirements are applicable, prior to constructing or reconstructing a well on this property. No well may be constructed on this property unless applicable requirements are met.

If construction is proposed on this property that will require dewatering, or if groundwater is to be otherwise extracted from this property, while this groundwater use restriction is in effect, the groundwater shall be sampled and analyzed for contaminants that were previously detected on the property and any extracted groundwater shall be managed in compliance with applicable statutes and rules.

This restriction is hereby declared to be a covenant running with the land and shall be fully binding upon all persons acquiring the above-described property whether by descent, devise, purchase or otherwise. This restriction benefits and is enforceable by the Wisconsin Department of Natural Resources, its successors or assigns. The Department, its successors or assigns, may initiate proceedings at law or in equity against any person or persons who violate or are proposing to violate this covenant, to prevent the proposed violation or to recover damages for such violation.

Any person who is or becomes owner of the property described above may request that the Wisconsin Department of Natural Resources or its successor issue a determination that one or more of the restrictions set forth in this covenant is no longer required. Upon the receipt of such a request, the Wisconsin Department of Natural Resources shall determine whether or not the restrictions contained herein can be extinguished. If the

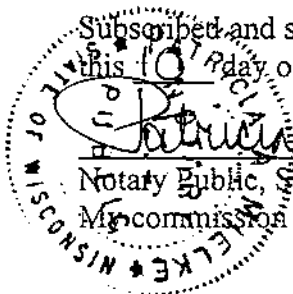

Department determines that the restrictions can be extinguished, an affidavit, attached to a copy of the Department's written determination, may be recorded to give notice that this deed restriction, or portions of this deed restriction, are no longer binding.

By signing this document, Frank J. Buss asserts that he/she is duly authorized to sign this document on behalf of F. R. Buss & Company.

IN WITNESS WHEREOF, the owner of the property has executed this Declaration of Restrictions, this 10<sup>th</sup> day of April, 2001.
